POWERED OHIO

OHIO can secure its future as a **REGIONAL ENERGY LEADER** BY adopting policies that make **ENERGY AFFORDABLE + RELIABLE** & drive **ECONOMIC GROWTH**

RECOMMENDATIONS FOR A POWERED OHIO

- ***Preserve House Bill 15's Behind-the-Meter Framework***
- ***Streamline Small Modular Reactor Development***
- ***Require Grid-Enhancing Technologies Before New Transmisson Spending***
- ***Replace Rigid Load Commitments with Financial Assurance for Large Grid Customers***
- ***Allow Consumer-Regulated Electric Utilities for New Large Loads***
- ***Take a Proactive Posture in PJM Transmission Planning***
- ***Sell Electricity, Not Just Gas***
- ***Fast-Track Permits for Larger Projects***
- ***Incentivize Residential Battery Storage to Flatten Peak Demand***
- ***Expand Priority Investment Areas to Export Transmission Corridors***

The Buckeye Plan: Powering Ohio's Climb to the Top, produced by The Buckeye Institute, is a comprehensive guide of effective and fically sound public policies for Ohio. Learn more at: **BuckeyeInstitute.org/TheBuckeyePlan**.
