

# ECONOMIC RESEARCH CENTER

AT THE BUCKEYE INSTITUTE

THERE ARE TRADEOFFS WITH ANY CHANGE TO PUBLIC POLICY AND EVEN SMALL POLICY CHANGES IMPACT STATE BUDGETS AND TAXPAYERS' POCKETBOOKS.

## WHAT THE ERC DOES

To help citizens and policymakers understand how policy decisions impact businesses, families, jobs, the economy, and state revenues, the Economic Research Center (ERC) at The Buckeye Institute provides reliable research and custom dynamic economic modeling on:

Tax Policy

Government Spending

Energy Policy

Health Care Policy

## IMPACT OF OUR WORK

Using a custom dynamic scoring model developed in-house by economists at the ERC, Buckeye experts are able to **demonstrate the true costs of policy changes.**

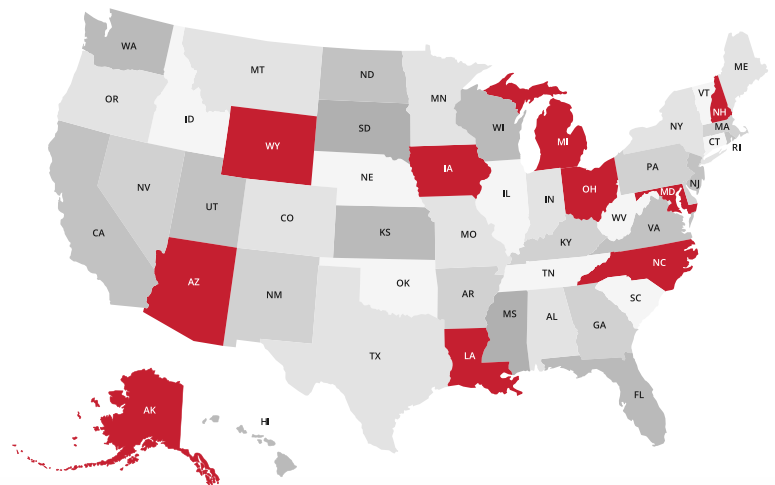

Since 2016, the ERC's work has **saved taxpayers in 10 states more than \$1 billion.** We can help your state too.

Economists and analysts at the ERC **conduct research on a variety of issues** including tax reform, fiscal policy, energy policy, and health care policy.

Buckeye experts at the ERC develop tax plans tailored for the specific needs of states and meet with policymakers to clearly explain how those plans **benefit taxpayers and boost economic growth.**
