

Ohio by the Numbers—July 2014

Private-Sector Job Recovery

Ohio's employment peaked in March 2000 at 4.85 million jobs. Using job-growth rates from the '90s boom, employment would not return to that level until September 2017. Most likely, full recovery won't happen until the early 2020s. **PLEASE NOTE: These numbers reflect BLS' new benchmarks as of 2014.**
